Coronavirus update: New contactless services to help keep you safe. Dave was extremely professional and courteous - truck as advertised very clean extremely happy. Came away with great truck. Definitely recommend. Rachel was the only one who kept in constant communication, they should of had her as a salesperson. I was transferred to a salesman who was too busy for me so he sent me to his assistant. And her communication is horrible. Found out we had 2 separate appointments because of emails, not because we scheduled anything or knew about anything. We ended up purchasing a vehicle somewhere else. Dealership was very busy so we had to wait about 20 minutes, past our appointment time. Otherwise nfreat experience and would recommend! Dealer contacted me right away. But at the same time I found another vehicle on Cargurus that better fit my needs. So I went with that deal. It was great the owner was very nice explained everything my best experience buying a vehicle. Mike went above and beyond to explain the finance process and took great care of my wife and I. The car is amazing, I could not have asked for a better dealer! Will be recommending all friends and family to MK Motors from henceforth. Thank you Mike! They told me one day that I needed one down payment. I came back the next day with the exact amount and they then told me that they needed more. Very attentive and followed up giving me answers to my questions and very professional. Contacted by email. Did not really answer my questions. I asked if it had the tow package. The answer I got was, "I don't know but I can check. If not we can add one". Why couldn't they check before sending the email? They gave me no information that I did not already have. Finally got to talk to someone and they said truck needed a motor was why it was so cheap, even though their website said it was ready to test drive. Absolutely awesome service. Salesman went about and beyond to show me benefits of vehicle. Car sounded like it was gonna blow up.. Go look at the truck yourself I got a great deal on a good car. Friendly, informative and easy to work with. I'm very happy and pleased with the entire experience. Over all they did a wonderful job. The salesman wasn't pushy and awnsered all my questions. I would recommend them as a good place to purchase a vehicle. The sales staff was excellent respectfully the online sales person we went through the the Wrangler in detail and actually spend a couple hours just talking about different things that could be done with it was such a good experience that I actually bought the Wrangler. Very happy with my salesperson and seems all issues and concerns have been addressed. Very happy. It was a Sunday and they reached out right away. Called me Monday morning. Answered all questions. The salesman was very nice, knowledgeable and professional. I didn't buy the vehicle but when I'm ready I will contact him again. Frank was great , a stand up Vietnam vet. Price was great. Enjoyed my experience so much brought my brother over and he purchased a truck the very next week. The Dodge Ram has earned its place on the market. The number of options and trims that the Ram has available is simply staggering. Do you want a 3. Do you want the 4. How about transmissions? There's a four speed automatic, a five speed automatic, or a six speed manual, all with overdrive. And of course, the continual question with trucks; should it be a 4x4 or a 4x2? Mega cab, quad cab and regular cab trims are available in the Dodge Ram Air conditioning of course comes standard. Power windows, power locks, separate passenger and driver climate controls, a CD changer, a DVD player, a Navigation System, leather and heated seats can all be found in various trims of the Dodge Ram With comforts like that, it's a wonder people even leave the vehicle. If you're more practical and work minded, then don't worry. There are options for you too. Would you like a shorter 6 foot bed? Or an 8 foot bed? How about a bed liner? These are all pretty standard across all pickups of this size, but add in all of the comforts available, and the Dodge Ran is a hard truck to pass up. Owners would tend to agree. Overall, owners love the comforts of the Dodge Ram , and the power it has. Obviously, the gas mileage is a constant complaint that almost everyone has, but most of them understand that this is a power truck, not made for fuel mileage. Other complaints were that the ride was very still, and that the V6 is to small and whose fault is that for buying it? For the most part, owners loved it, but if they don't they absolutely hated it. The Dodge Ram is apparently either one of those vehicles you can't feel neutral about. We haven't had this truck very long but so far we are very impressed! We expected horrible gas mileage after reading reviews but it gets about 15 in town and on the highway. That is all we can ask of a 4WD truck. It did not have a tow package on it so we told the dealer that we would not buy it without one. They put one on for us immediately : Ours has the 4. We traded in our Ford F- with , and it was tough because the Ford still had no issues. We are happy with our choice though!! Read more. Read less. Sign Up.
